APP FEATURES:

Click on the name of the authors to learn more about them, e.g., background and experiences.

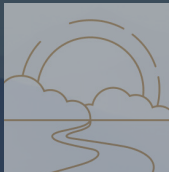

You can change settings for sheet music.

These features are not currently available for all songs and authors.

WAYS OF THE LORD

"Ways of the Lord" represents a compilation of spiritual nourishment, a rich fountain of lyrics adorned with appropriate melodies. The songs were composed under difficult circumstances, in life struggles, in moments of great joy, for special occasions and so on.

We hope that the songbook can also become one of your treasures.

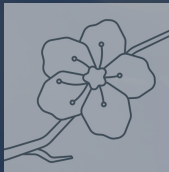

WAYS OF THE LORD - ADDITIONS

The intention with this collection of songs from the last 15 years is to try them out in practice before they are added to the main songbook.

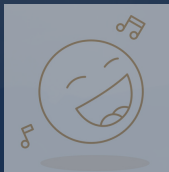

ALMOND BLOSSOM

The songbook contains 456 songs, divided into 7 categories, which together cover the spectrum from young children to the very oldest in different phases of life and situations. The songbook is a rich and varied collection of toddler songs, revival songs, spiritual songs and otherwise many good intellectual works for different purposes and situations.

ALMOND BLOSSOM – ADDITIONS

The intention with this collection of songs from the last 15 years is to try them out in practice before they are added to the main songbook.

SING OUR SONGS

SOS (abbreviated) is a quite new song collection for the very youngest children in the age group 0 to 10 years. The words that enter children's mind in their early years, will often remain there for the rest of their lives. SOS is an ongoing project that different churches or groups can sign up for. In addition, SOS has the clear-cut goal of being the best contribution to those who are passionate about children experiencing the joy of singing.
